

## Dave Lawler

Dave Lawler is based in Burbank CA and Maui HI. He began his career in the entertainment industry as a musician, and later was one of the founding members of Half Nelson Systems Inc., Ontario Canada. HNS was a high profile full service production company specializing in Juno award winning artist's tours, summer music festivals, corporate events, World Fairs, and high profile installations.

After relocating to the USA in 1993, he has been seen as the FOH mix engineer and/or SIM system measurement engineer on major artist's international tours such as Diana Krall, kd lang, Anita Baker, Barry Manilow, Van Halen, Luis Miguel, Norah Jones, Joni Mitchell and Pavarotti to name a few.

Dave's specialty is orchestral mixing for live concerts and special events, having worked with leading international orchestras with or without accompanying artists.

As well as consulting for professional manufacturers such as Meyer Sound Labs, Dave also has proven experience for over 25 years in design/installation of professional audio systems, as well as variable acoustic systems especially in concert theaters and churches.

He also has extensive training and experience in audio system measurement and alignment using Meyer Sound Labs SIM or Rational Acoustics Smaart systems in countless venues and applications including theaters, churches, sports arenas, and outdoor venues though-out the world.

While he is at home with his family, Dave also enjoys playing piano and guitar, as well as mountain biking any chance he gets.
